

GATOR™ FULL-SIZE XUV SERIES

Crossover Utility Vehicles

JOHN DEERE

RUN WITH US

XUV 845 / XUV 875

Work without limits in the redesigned Full-Size Gator™ XUV

Transform the way you work. Loaded with productivity and efficiency upgrades, our newest Full-Size Gator™ XUV 845 and XUV 875 models redefine what Gator™ Crossover Utility Vehicles are capable of. Quickly boundary map your fields? Models equipped with integrated GreenStar™ Ready technology are up to the task. Neatly organize all your tools and materials? The customizable cargo box makes it easy to keep everything securely together. Carrying a full day's load, towing heavy objects, or operating a sprayer? That's what these multi-tasking machines were made for. But, that's just the start, because the possibilities are endless.

SEATS THREE, PLEASES ALL

Stretch out in this Gator™ XUV's roomy, comfortable cab, and enjoy a hard day's work made easy. In addition to impressive towing capacity, a SAE 12-volt power port is available in the cargo box, which gives you a hassle-free way to power attachments in the field.

Both the M-Trim and R-Trim models offer even more upgraded features, so take your pick:

- **M-Trim Models**—step up to power steering with a smooth, driving experience and Maxxis™ tires to maneuver all types of terrain. LED brake and taillights are standard, while headlights have been upgraded from halogen to a single-beam LED light. Factory-installed turn signals are also available as part of the Premium Comfort & Convenience package. Choose from open station or with an optional cab that features HVAC.
- **R-Trim Models**—enjoy creature comforts year-round with the standard R-Trim or Signature Edition models. In both models, our quietest cab yet includes HVAC with stone interior panels, a marine-grade vinyl seat or genuine leather seat (available in the Signature Edition models), alloy wheels, Predator heavy-duty all-terrain radial tires, standard cargo box power lift, and dual-beam LED headlights. Upgrade to the Ultimate Comfort & Convenience package and you'll get all the great features of the Premium Comfort & Convenience package, plus a winch with a 4,500 lb (2041 kg) capacity.

Quieter Driving Experience

Through changing the muffler's airflow direction and adding sound dampening materials and internal baffling, noise from the engine exhaust system is reduced by up to 31 percent.**

CVT Exhaust

Has a cover that both raises the outlet and changes the direction of the air flow leaving the CVT. These changes make it tougher for water to get into the CVT case.**

Cleaner CVT Air Intake

CVT intake has been raised and is located at the top of the cargo box. Compared to previous models, this allows for cleaner air to be pulled into the system and helps prevent debris from entering the enclosure.

*Noise reduction varies by operating speed (compared to previous models). 31% reduction applies to an operating speed of 21.5 mph. (34.6 kmh). XUV 845 gas models only.

**Changes do not increase the stated water fording height the machine is capable of handling.

More In-Cab Storage

Under-seat storage can also charge electronic devices with a (field installed) 120-volt power outlet kit.

Wider, customizable cargo box.

The redesigned cargo box—four inches (10.16 cm) wider than previous Full-Size Gator™ XUV models, with a class-leading* cargo box volume of 18.5 cu ft (0.524 cu m)—can be easily configured to carry practically any load and keep contents secure and materials separated. A host of updated load management tools ensures this beast is designed to work.

Customizable Organization

Eight divider slots (five on the sides and three in the front) help keep materials organized.

Second Layer of Storage

Tiered lip around the sides adds a second layer of storage with standard lumber.

Load Up, Lock Down

Five D-ring style interior tie-downs (four on the corners and one in the front middle) secure loads up to 400 lbs (181 kg).

Locked In and Loaded

Ten exterior tie-down pockets (five on each side) secure loads up to 125 lbs (56 kg).

Stake Pockets

Eight rail stake pockets to secure various stake pocket clamp attachments to the cargo box.

Tailgate Workbench

Tailgate workbench, complete with a v-channel and bump stops for cutting, dedicated clamping pockets, a ruler, and a flat work surface.

12-Volt Power Port

Conveniently located 12-volt SAE power port in the cargo box. Now you'll have power without needing to connect wires to the battery.

Cargo Box Power Switch

Get power to your cargo box with the flip of a switch.

*Class defined as full-size/heavy-duty crossover UTVs with a sub-100-inch wheelbase powered by a gas engine in the 750-900 cc engine range. Comparisons made by calculating volume using published cargo box dimensions.

XUV 845R Signature Edition / XUV 875R Signature Edition

John Deere
SIGNATURE EDITION

Experience luxury only found in the Signature Edition Gator™ XUV.

From now on, when you think Gator™ XUV, think comfort—because our roomy, three-passenger factory-installed cab is loaded with enhancements that'll make you love going to work. From the easy-to-clean premium leather seats, 7-speaker infotainment system with touchscreen, rear-facing camera, to the sliding rear window.

The Signature Edition Gator™ XUV redefines comfort. And since you use your Gator™ XUV year-round, heating and air-conditioning is standard, too.

Bumper Pro Brush Guard

Front, wraparound brush guard with rubber bumpers helps you easily push gates without fear of damage. Middle mesh screen protects grille from dirt and debris.

Touchscreen Infotainment System

Signature Edition models come standard with Harman™ 7-speaker touchscreen infotainment system.

Rear-Facing Camera

Clear visibility to rear hitch ball makes hooking up trailers and other tow behinds a snap. It also helps in accurate material placement when unloading and is helpful when maneuvering in tight spaces.

Leather-Wrapped Grab Handle

Signature Edition vehicles include a leather-wrapped grab handle. The stitching is eye catching, and a foam base layer gives a soft feel.

Cargo Box Power Lift

Leave the heavy lifting to the Gator™ XUV. Press a switch and the mechanized cargo box tilts upward to empty the contents.

Rear-Sliding Window

Access the cargo box from the cab, or open to enjoy cross ventilation. Slide window to open partially or fully.

XUV825M S4 / XUV855M S4

4WD meets room for 4.

Engineered with people and performance in mind. You can take a four-person group to the farm, trail, or job-site when needed. Every inch and element have been crafted to work hard on your behalf, day after day, job after job. Both models deliver impressive handling and maneuverability, in the field or on the hunt.

But let's talk engine power. The XUV825M S4 has a 50 hp (37.3 kW) gas engine, so hauling hefty payloads is a snap. For those who prefer diesel, the XUV855M S4 is a powerful performer, too, with a *22.8-hp (17.0 kW) diesel engine.

Their cargo box includes 14 tie-downs, and the tailgate folds down easily. So managing and dumping a load is just as easy as carrying one.

That's the beast side. Now here's the beauty. These crossovers are flat-out fun to drive. More motorsport than moving van, we've loaded each down with enhancements to help take the work out of your workday. A fully independent suspension means a super smooth ride throughout.

Engine

Powerful gas-powered engine starts when you do, no matter the season. Cold weather? No problem, engines are tested to start in temperatures as low as -20 degrees Fahrenheit (-28.9 Celsius).

Easy-to-Read Dash Panel

Colorful and a breeze to read. Indicator lights let you see everything from speed and RPMs to gear position. There's even a service interval indicator to keep you up-to-date on maintenance.

Instant 4WD Engagement and Electronic Differential Lock

Enjoy instant traction with the flip of a switch. Electronic differential lock button gives you a more automotive feel for instant engagement at your fingertips.

Cargo Box Lights and Liner

Let everyone see where you are in dark and early dusk with rear brake and taillights. Standard spray-in cargo box liner keeps your hardworking cargo box protected.

Extra Cargo Space with Folding Rear Seat

We don't sacrifice storage capacity to carry more passengers. Flip up the rear seat bottom, there's plenty of storage underneath. Not hauling anyone? Fold down rear seat back and carry extra cargo.

More People. More Gear. No Problem.

Keep gear secure and make loading easier. Tie down bars on the cargo box sides work well with the 14 different tie-down points. Remove the cargo box sides and convert to flatbed mode.

Factory Options and Attachments

Green & Yellow

Included in the base price on all Full-Size XUV models.

Olive & Black

Available as an option on M and R Trim Full-Size XUV Models.

TrueTimber® Kanati®

Available as an option on M and R Trim Full-Size XUV Models.

Alloy Wheels

Customize your Gator UV with these sharp-looking 14-in. (35.5-cm) wheels. Black alloy wheels go perfectly with the Olive & Black or the TrueTimber® Kanati® machine color choices.

Yellow Alloy Wheels

Trick out your ride and complement the Green & Yellow machine color choice with optional yellow 14-in (35.5 cm) alloy wheels.

Premium Protection Package

Upgrade your three-passenger XUV with 360-degree protection. Front brush guard and extensions, rear bumper, and rear fender guards.

Maxxis® Bighorn® 2.0 Extreme Terrain Radial Tires

Take on extreme terrain and laugh in the face of Mother Nature's toughest trails. Front: 27x9-R14, Rear: 27x11-R14

Predator Heavy-Duty All-Terrain Radial Tires

These heavy-duty all-terrain radials are specifically designed to last on hard surfaces and intermediate off-road usage. Front: 27x9-R14, Rear: 27x11-R14

Warn® Winch

The 4,500-lb (2041 kg) winch pulls its own weight. Easily mount with the Winch Mount Kit and add a wireless remote control for additional convenience.

AUTOTRAC™ AND GREENSTAR™ READY OPTION*

What used to be done in your tractor—mapping boundaries, setting A-B lines, and flagging obstacles—can now be done with select Full-Size Gator™ XUV models. Our AutoTrac™ and GreenStar™ Ready Gator™ XUVs are factory equipped for plug-and-play automation. Precision farming has never been so easy.

**Available on 3 passenger Full-Size UVs with cab.*

Western® Front Blade

Quickly clear snow and ice on sidewalks and driveways with the six-foot Impact™ HD Hydraulic V-Blade Snowplow, built exclusively for XUV 845 and XUV 875 models.

Western® Spreader

De-ice with precision. Drop™ spreaders provide up to 36 in (91.44 cm) of spread width in a drop pattern so the salt stays exactly where your XUV drives.

Front Hood Rack

Easily haul more gear with this convenient 49 in (124.5 cm) long x 14.25 in (36 cm) wide x 4.25 in (11 cm) deep-sized rack. The 100 lb (45.4 kg) payload capacity rack mounts to a brush guard.

Utility Rack by Artillian®

This utility rack provides a space to quickly store tools and accessories while leaving the cargo box open for other materials.

Artillian® Utility Rack Accessory

Securely carry both large and small tools to projects with the Artillian® Utility Rack Accessory that is easy to assemble and fits onto the back of the Full-Size Gator™ XUV's cab.

Stake Pocket Clamps

Keep your long-handled tools within arm's length, organized and ready-to-go. Easily and securely carry trimmers, shovels, and rakes.

LED light kit

Increase working hours with extended visibility, enabling work in low-light conditions for greater productivity.

LED Beacon

Enhance visibility in low-light conditions with an LED beacon. See and be seen during work in early mornings and late evenings.

Taillight Covers

Protect your tailgate lights with easy-to-install taillight covers.

- 1 Independent Double-Wishbone Suspension**
Impressive front and rear suspension travel, 8-in (20.32 cm) front and 9-in (22.86 cm) rear, makes traversing over rocks, stumps, and streams more comfortable.
- 2 High-Strength Steel A-Arms**
These heavy-duty units provide balance, strength, and weight for true-durability on rugged terrain.
- 3 High Ground Clearance**
12-in (30.5cm)* of ground clearance prevents the Full-Size XUV from getting high centered, even on uneven terrain.
*XUV 845E 11-in (27.9 cm)

Tailgate Ruler

Measure twice and cut once with this built-in ruler on the tailgate.

Integrated Clamping Points

4 pockets on the exterior of the tailgate provide reinforced spots to place a clamp allowing items to be secured to the tailgate.

Factory Installed Bluetooth™ Radio

Bluetooth functionality gives you the ability to play music from your phone so you are in complete control.

Dual Beam Headlights and Turn Signals

Multiple LED bulbs within the headlight.

Right with you. Your John Deere dealer.

Committed turf experts dig into what you need. Factory-trained service and parts professionals ensure that your equipment keeps working as hard as you do. So, let's get to work, together.

The engine horsepower and torque information are provided by the engine manufacturer. Actual operating horsepower and torque will be less.

Features, specs and attachments subject to change without notice.

Before operating or riding, always refer to the safety and operating information on the vehicle, and in the Operator's Manual. Actual vehicle top speed may vary based on belt wear, tire selection, vehicle weight, fuel condition, terrain and other environmental factors. Travel responsibly on designated roads, trails or areas, respect the rights of others, and avoid sensitive areas such as meadows, lakeshores, wetlands and streams.
